In General.

A brighter day could scarcely be desired for Thanksgiving. The wind was cool, but the person under reasonably ample and seasonable wraps found invigoration in the bracing atmosphere.

country. Our duties lie in the selecting of the rulers who are to govern the country and shape its destinies. If we place the power of this government in the hands of an ignorant and irresponsible class of men, what can we expect?

The speaker pointed out that the nation was, if the signs of the times were rightly discerned, drifting into a condition of voluptuousness which was dangerous and must be counteracted.

The speaker closed with an appeal to his hearers to learn a lesson from the signs of the times which would help them in their pilgrimage. God, he said, is to-day preparing our hearts for a rich harvest. The process may be painful, but the glow and the harvest must come before the seed and sunshine.

The arrest of Dr. Haughwout, the dentist, at the instance of Miss Chase, the owner of the building in which he has his quarters, has called that gentleman to a defence of his position. It may be remembered that the doctor was charged with the malicious destruction of property, because he repeatedly broke down a storm door which Miss Chase had placed at the main entrance. Dr. H. says that the door was placed there simply to inconvenience him and injure his business. The facts of the case are, he claims, that a rival dentist of this city, desiring to get hold of his rooms, and this putting up of the storm door was simply a scheme to get him out. Acting upon the advice of his attorney, Dr. Haughwout took the door down twice, and for that heinous offense Miss Chase had him arrested and bound over to keep the peace toward the old barn door. The doctor says that this storm door serves to keep out customers, and has already injured his business to the extent of \$30 a day. These statements the doctor says he can prove, in a damage suit which he is about to commence against Miss Chase.
